b. Identify most of the people in the pictures that you submitted and/or pictures in you wedding, engagement or other ceremony album.

There can be an immediate interview on phone with person in Canada, right after person in India's interview.

So, make sure you call your spouse in Canada and tell him/her of all the questions that were asked in an interview [Important]. And also advise you spouse of any new material that have been taken/requested from you i.e. Wedding Pictures or etc.

NOTE:- An Immigration Officer is trying to find out if your relationship is genuine. Moreover, most of the interviews being held are of spouses of people getting married second time. Officers want to make sure that the person sponsoring you is not doing it for money. If your relationship is genuine, then you should have no problems getting thru the interview, as you already know all the information about your spouse. Still it is good idea to prepare for an interview, just in case. AND TELL THE TRUTH AND DO NOT LIE.
